Dynamy Internship Year’s *Skills Essential To Success Experience (SET)* is an intensive 2-week camp-style experience that allows a group of high school graduates (ages 17-22) to explore their career interests and strengthen skills essential to success in either our Internship Year program, college or a career. Through an experiential learning model, students will shadow professionals in the field of their career interests, live independently in apartments with other Dynamy students, and participate in executive functioning and life skill building workshops. The SET Experience is designed for students who identify as hands on learners that wish to get a jump start on practical skills before their next chapter of life.

“Everyday of your life is another lesson. If you learn the lesson well and apply it; whether positive or negative, you determine what happens in your tomorrow.” — David Kofi Awusi
